

Invitation for online CE programme by IDEXX Laboratories

Unravelling Feline Retroviruses: Testing for FeLV and FIV

Feline Immunodeficiency Virus (FIV) and Feline Leukemia Virus (FeLV) are retroviruses specific to cats. In this lecture, we will explore the importance of testing for these viruses, their modes of transmission, and how to manage infected cats. Learn why testing for these viruses is critically important for feline health.

REGISTRATION

Date:

23/Jul/2024 (Tue) 8:00pm HK Time - 1 hour lecture + 20 mins Q&A

Fee: Free to attend

CPD Point: 1.25 (TBC)

PRESENTER

Dr. Susan Little
DVM DABVP

Dr. Susan Little received her BSc from Dalhousie University (Nova Scotia, Canada) and her DVM from the Ontario Veterinary College, University of Guelph. She has been in feline practice since 1990 and achieved board certification in Feline Practice in 1997. Dr. Little is part owner of two feline specialty practices in Ottawa, Canada. She is a board member and Past President (2015) of the American Assoc. of Feline Practitioners, as well as being a past board member and Past President of the Winn Feline Foundation. Dr. Little also serves on the board of the International Council for Veterinary Assessment (formerly NBVME).
